

Deftify is a market data aggregator, index fund, metaverse game and Africa-focused incubator/launchpad all in one, connected and powered by our DFTY token. DEXTools is doing crypto market data, Axie Infinity is doing Play2Earn, DAOMaker are doing a crypto launchpad. We do all of this and more.

The Deftify Ecosystem

Deftify’s core ecosystem contains three diverse products. Each serves our mission to grow the ecosystem, promote widespread crypto adoption and to support promising blockchain projects in emerging economies.

01

TRADE
Instant Watch & Deftify Indexes

Access the most important crypto data, including specific metrics for DeFi and NFT markets. Never pay for a subscription. Instant Watch will also host Deftify Indexes, where you can diversify investments with Index Tokens backed by baskets of promising crypto assets.

02

PLAY
MetaCurse

Our Play platform will host a metaverse game called MetaCurse. It is an exciting new way to challenge friends and foes online that requires you to outsmart the opponent player and predict their moves. The metaverse world will be built where you can build and own virtual land and finish exciting quests as well

03

BUIDL
Private Access Pad

Incubates promising crypto start-ups, and connects these projects with capital from our growing network of entrepreneurs and experts. PAP gives investors access to incubated projects in one of the fastest growing markets on Earth.

 AXIE INFINITY	✗	✗	✗	✗	✗	✗	✓

Unlock Deftify with DFTY

Deftify is powered by DFTY, our native token which acts as a ticket to our entire ecosystem. In addition to representing the value of the ecosystem, the token also:

Provides tiered access to Private Access Pad whitelist lotteries

Earns attractive yields when staked

Provides benefits through Deftify’s network of partners, including additional yield farming opportunities

Unlocks premium features in the Instant Watch data aggregator

Converts to MetaCurse game points, and can be used when trading Deftify NFTs
